Hotel for sale in a perfect position! In Cala San Vicente you will find this smaller hotel with 44 double rooms. The hotel needs refurbishment and the plans are approved and available. The hotel has an outdoor pool and an area for sunbeds. Only 25 meters to the beach make this property a great investment. Enormous potential. There is also the possibility to make a large terrace to serve food and drinks with the best views in the village, that would attract a lot of people, not only the hotel guests. There are many options on this hotel, since a buyer can also choose to rent it first to see that the business is working, before actually buying it. The present owner would also consider remaining a partner in the hotel.

The plot of land is 2500 m2.
